

HAIFE HU

EDUCATION

2021
|
2017

PhD. Candidate, Applied Bioinformatics

The University of Western Australia

Perth, WA

- Working on 1000+ soybean pangenome project
- Working on Amborella pangenome project

2017
|
2013

B.S., Biotechnonology

The University of Western Australia

Perth, WA

- Thesis: Pangenome of rice blast fungus
- Graduate with First-class Honors

RESEARCH EXPERIENCE

2018

Helper in programming teaching event

Research Bazaar 2018

The University of Western Australia

- Helping and organising the R programming and RNA-seq analysis skills teaching

2016

Research Assistant

Edward's Applied Bioinformatics Group

The University of Western Australia

- Develop larger dataset management skill
- Be familiar to the GBS analysis pipeline

2016
|
2015

Research intern

Centre for Crop and Disease Management (CCDM)

Curtin University and Pawsey Supercomputing Center

- Working on high-throughput gene orthology calculation and phenotype-based data mining project
- Using supercomputing source to perform bioinformatics analysis

SELECTED PUBLICATIONS, POSTERS, AND TALKS

Pangenome of the *Amborella trichopoda* suggests gene

presence/absence variation is associated with environmental adaptation

Under-Review in Nature Communications(copy available upon request.)

2019

- First Author
